Dear Kurt:

I was glad to hear from you about our common ancestries. I haven't worked on the family records for quite some time. I do find it interesting to discover that someone else is working on the family tree too.

Enclose is a floppy with the family records of Mathia, Davis, and Steele. These files are in .paf format from the Personal Ancestral File software. These files contain the family records. Also, there are files generated in M/S word. These files contain some background information used in putting the family records together. They may contain some interesting additional information not found in the family records.

Obliviously, the Mathia records are of our common families. My grandmother Geritie (Mathia) Steele was the connection to the Mathia's, since her father was Peter William Mathia. Hence, the Steele records contain Gertie's descendants. My mother, Eva Mae (Steele), Davis was the eldest child of Gertie and Frank Steele. Hence, the Davis records contain Eva's descendants, including myself.

I hope the information in these records is of help to you. There is no doubt some errors in the information, since a lot of it was related to me by memory. I would appreciate any corrections and additional information that you have.

I tried the internet for you, but was unable to connect. Perhaps I have the wrong address. The address I tried was KurtMatthia.com. My address is dmdav66@msn.com.

I would have written sooner, however, our daughter and 7 month old grandson from Portland, Oregon were visiting. It was busy time to say the least.

I am looking forward to hearing from you.

Sincerely,
